## EXECUTIVE SUMMARY

Recent Computer Science graduate from the University of Wisconsin–Madison (CGPA 3.57) with hands-on experience in machine learning, computer vision, and cloud computing. Proficient in Python, Java, PyTorch, TensorFlow, SQL, and full-stack web development. Experienced in developing and deploying AI models and predictive analytics platforms within Agile collaboration environments to deliver scalable, real-world solutions.

## EDUCATION

**University of Wisconsin – Madison, USA** Sep 2023 – May 2025
**Bachelor of Science, Computer Science** | CGPA: 3.57/4
*Relevant Coursework: Intro to AI, Intro to Computer Engineering, Intro to Big Data Systems, Intro to Operating Systems, Software Engineering, Autonomous Robotics, Intro to Human-Computer Interaction, Intro to Algorithms, Elementary Matrix & Linear Algebra, Machine Organization & Programming, CS Capstone*

**Sunway University, Malaysia** Jan 2022 – Aug 2023
**ADTP, Bachelor of Science in Computer Science** | CGPA: 3.48/4
*Relevant Coursework: Programming I-III, Intro to Discrete Mathematics, Calculus & Analytic Geometry I & II, Calculus-Functions of Variables, Intro to Probability & Mathematical Statistics I*

## STRENGTHS

- **Critical Thinking & Problem Solving**: Able to think quickly, rationally and logically and arrive at the best solution even during stressful situations
- **Passionate & Quick Learner**: Driven by curiosity and enthusiasm to continuously acquire and apply new skills
- **Good Team Member**: Open-minded and patient, with strong communication skills that foster positive relationships and effective teamwork
- **Time Management & Organization**: Able to prioritize tasks effectively, meet deadlines consistently, and balance multiple projects without compromising quality

## TECHNICAL SKILLS

**Programming Languages**: Python Java, JavaScript, SQL (MySQL, SQLite), MATLAB
**Web & App Development**: React, Flask, HTML, CSS, Git, Docker
**Data Science & Machine Learning**: PyTorch, TensorFlow, scikit-learn, Matplotlib, Seaborn
**Big Data & Cloud Technologies**: Google Cloud Platform (GCP), Apache Spark, Apache Kafka
**Project Management Methodologies:** Agile (Scrum)
**Design & Prototyping Tools**: Figma, Canva
**Simulation & Robotics:** Webots
**Others**: Microsoft Office (Excel, PowerPoint, Word)

## PROJECTS

**Customer Churn Prediction Platform, UW-Madison Capstone (NUUMobile)**
https://github.com/ACarrig/NUUMobile1

- Developed and deployed a Flask + React web application enabling businesses to upload Excel files and generate churn predictions with 90% accuracy.
- Built interactive dashboards in React/Plotly to visualize churn drivers and customer segmentation, streamlining analysis and improving decision-making.
- Implemented ensemble models (XGBoost + Stacking) with feature importance analysis, enabling businesses to prioritize high-risk customers and take proactive retention actions.

**Age & Gender Predictor**
https://github.com/ikteng/Age-and-Gender-Predictor

- Built a real-time computer vision model (PyTorch, ResNet) trained on 20K+ UTKFace images to predict age and gender, achieving 89% gender accuracy, and 4 MAE for age prediction.
- Integrated OpenCV-based face detection and PyTorch inference pipeline for real-time webcam and image-based age and gender prediction, achieving smooth live detection with on-screen labels and bounding boxes

## ACHIEVEMENTS & AWARDS

Dean's List (Spring 2024–2025), Certificate of Academic Honors: Summa Cum Laude (Jan–May 2023), Cum Laude (Aug–Dec 2022), Jeffrey Cheah Entrance Scholarship Recipient (2022)

## LEADERSHIP EXPERIENCE & CAMPUS INVOLVEMENT

**Member, AI@UW** Aug 2024 – May 2025

- Collaborated with peers from diverse academic backgrounds on AI-focused projects, applying machine learning techniques to real-world problems.
- Attended workshops and discussions on AI applications, neuroscience, and emerging technologies.

**Member, Rotaract Club of Sunway University** Sep 2022 – Aug 2023

- Assisted in organizing community service initiatives, including fundraising events such as the Sunway MS Charity Walk.
- Supported educational outreach by contributing to the EDURACT tutoring project, aimed at improving access to learning for underprivileged children.
- Actively participated in monthly meetings by contributing ideas and collaborating with members to support community service initiatives, while developing teamwork and organizational skills.

## MISCELLANEOUS INFORMATION

**Languages**: Proficient in English and Chinese
**Availability**: Immediate
